

Great Fire of London

Key Vocabulary:

past, present, old, modern, capital city, United Kingdom, London, River Thames, diary, fire-breaks, cause, effect, King Charles II, fire-fighter, date, Samuel Pepys, 17th Century, St Pauls Cathedral, monument.

Things we will learn about:

The fire started in Thomas Farriner's bakery, in Pudding Lane.

The fire started on Sunday 2nd September 1666.

The fires used for baking were not put out properly, this started the fire.

The fire spread very quickly because the buildings were made of wood and straw and were very close together.

It had been a dry summer, so the buildings were dry, and strong winds were blowing which helped the fire to spread.

People tried to put the fire out through buckets and water squirts.

King Charles ordered some of the buildings to be pulled down to create fire breaks.

As a result of the fire changes were made to the fire service and also the way houses were built.
